Drugs in this class have no generally accepted medical use in the racehorse and their pharmacological potential for altering the performance of a horse in race is high.

(2) *Class 2*

Drugs in this category have a high potential for affecting the outcome of a race. Most are not generally accepted as therapeutic agents in the race horse. Many are products intended to alter consciousness or the psychic state of humans, and have no approved or indicated use in the horse. Some products, such as injectable local anesthetics have legitimate use in equine medicine, but should not be found in a racehorse. The following groups of drugs are in this class:

- (a) Opiate partial agonists, or agonists-antagonists;
- (b) Non-opiate psychotropic drugs, which may have stimulant, depressant, analgesic or neuroleptic effects;
- (c) Miscellaneous drugs which might have a stimulant effect on the central nervous system (CNS);
- (d) Drugs with prominent CNS depressant action;
- (e) Antidepressant and antipsychotic drugs, with or without prominent CNS stimulatory or depressant effects;
- (f) Muscle blocking drugs which have direct neuromuscular blocking action;
- (g) Local anesthetics which have a reasonable potential for use as nerve blocking agents (except procaine); and
- (h) Snake venom and other biologic substances which may be used as nerve blocking agents.

(3) *Class 3*

Drugs in this class may or may not have an accepted therapeutic use in the horse. Many are drugs that affect the cardiovascular, pulmonary and autonomic nervous systems. They all have the potential of affecting the performance of a racehorse. The following groups of drugs are in this class:

- (a) Drugs affecting the autonomic nervous system which do not have prominent (CNS) effects, but which do have prominent cardiovascular or respiratory system effects (Bronchodilators are included in this class);
- (b) A local anesthetic which has nerve blocking potential but also has a high potential for producing urine residue levels from a method of use not related to the anesthetic effect of the drug (procaine);
- (c) Miscellaneous drugs with mild sedative action, such as the sleep inducing antihistamines;
- (d) Primary vasodilating hypotensive agents; and
- (e) Potent diuretics affecting renal function and body fluid composition.

(4) *Class 4*

This category is comprised primarily of therapeutic medications routinely used in race horses. These may influence performance, but generally have a more limited ability to do so. Groups of drugs assigned to this category include the following:

- (a) Non-opiate drugs which have a mild central analgesic effect;
- (b) Drugs affecting the autonomic nervous system which do not have prominent CNS, cardiovascular or respiratory effects—
 - (i) Drugs used solely as topical vasoconstrictors or decongestants;
 - (ii) Drugs used as gastrointestinal antispasmodics;
 - (iii) Drugs used to void the urinary bladder;
 - (iv) Drugs with a major effect on (CNS) vasculature or smooth muscle of visceral organs;
- (c) Antihistamines which do not have a significant (CNS) depressant effect (This does not include H1 blocking agents, which are listed in Class 5);
- (d) Mineralocorticoid drugs;
- (e) Skeletal muscle relaxants;
- (f) Anti-inflammatory drugs—those that may reduce pain as a consequence of their anti-inflammatory actions, which include:
 - (i) Non-Steroidal Anti-inflammatory Drugs (NSAIDs)- aspirin-like drugs;
 - (ii) Corticosteroids (glucocorticoids); and
 - (iii) Miscellaneous anti-inflammatory agents;
- (g) Anabolic and/or androgenic steroids and other drugs;
- (h) Less potent diuretics;
- (i) Cardiac glycosides and antiarrhythmics including—
 - (i) Cardiac glycosides;
 - (ii) Antiarrhythmic agents (exclusive of lidocaine, bretylium and propranolol);
 - (iii) Miscellaneous cardiotonic drugs;

1760—Continued

THE TRINIDAD AND TOBAGO RACING AUTHORITY RULES, 2000—CONTINUED

- (j) Topical Anesthetics—agents not available in injectable formulations;
- (k) Antidiarrheal agents; and
- (l) Miscellaneous drugs including:
 - (i) Expectorants with little or no other pharmacological action;
 - (ii) Stomachics; and
 - (iii) Mucolytic agents.

(5) Class 5

Drugs in this category are therapeutic medications for which concentration limits have been established as well as certain miscellaneous agents. Included specifically are agents which have very localized action only; such as anti-ulcer drugs and certain antiallergic drugs. The anticoagulant drugs are also included.

B. Penalty recommendations in the absence of mitigating circumstances)

- (1) Class 1—One to five years suspension and a fine not exceeding \$500.00 and loss of purse.
- (2) Class 2—Six months to one year suspension and a fine not exceeding \$500.00 and loss of purse.
- (3) Class 3—3 months to six months suspension and a fine not exceeding \$500.00 and loss of purse.
- (4) Class 4—1 to 3 months suspension and a fine not exceeding \$500.00 and loss of purse.
- (5) Class 5—Zero to 1 month suspension with a possible loss of purse and/or fine not exceeding \$500.00

C. Medication Restrictions

- (1) A finding by the official chemist of a prohibited drug, chemical or other substance in a test specimen of a horse is *prima facie* evidence that the prohibited drug, chemical or other substance was administered to the horse and, in the case of a post-race test, was present in the horse's body while it was participating in a race. Such incident will be referred to the Screening Committee appointed by the Authority only with respect to findings under class 5. Prohibited substances include:
 - (a) Drugs or medications for which no acceptance levels have been established;
 - (b) therapeutic medications in excess of established acceptable levels;
 - (c) substances present in the horse in excess of levels at which such substances could occur naturally; and
 - (d) substances foreign to a horse at levels that cause interference with testing procedures.
- (2) Drugs or medications in horses are permissible, provided—
 - (a) the drug or medication is listed by the International's Drug Testing and Quality Assurance Program; and
 - (b) the maximum permissible urine or blood concentration of the drug or medication does not exceed the published limit.
- (3) Except as otherwise provided by this section, a person may not administer or cause to be administered by any means to a horse a prohibited drug, medication, chemical or other substance, including any restricted medication pursuant to this section during the forty eight (48) hour period before post time for the race in which the horse is entered.

D. Medical Labelling

- (1) Unless otherwise authorised by the Authority, no person on racecourse premises where horses are lodged or kept, excluding licensed veterinarians, shall have in or upon said premises which that person occupies or has the right to occupy; or in that person's personal property or effects or vehicle in that person's care, custody or control, a drug, medication, chemical, foreign substance or other substance that is prohibited in a horse on a race day unless the product is labelled in accordance with this subsection.
- (2) Any drug or medication which is used or kept on racecourse premises and which, by law, requires a prescription must have been validly prescribed by a duly licensed veterinarian, and in compliance with the applicable laws. All such allowable medications must have a prescription label which is securely attached and clearly ascribed to show the following:
 - (a) the name of the product;
 - (b) the name, address and telephone number of the veterinarian prescribing or dispensing the product;
 - (c) the name of each horse for which the product is intended to be prescribed;
 - (d) the dose, dosage, duration of treatment and expiration date of the prescribed dispensed product; and
 - (e) the name of the person (trainer) to whom the product was dispensed.

E. Furosemide (Lasix)

- (1) Furosemide may be administered intravenously to a horse which is on the Bleeder List and which is entered to compete in a race, or to facilitate the collection of a postrace urine sample. It is to be noted that furosemide shall be permitted only after the Official Veterinarian has placed the horse on the Bleeder List, and after the expiration of fourteen days from the date of his placing the horse on the said Bleeder List.
- (2) The use of furosemide shall be permitted under the following circumstances on racecourse premises where a detention barn is available:
 - (a) Furosemide shall be administered at the direction of the Official Veterinarian or his/her designee no less than four hours prior to post time for the race for which the horse is entered.
 - (b) A horse qualified for furosemide administration must be brought to the detention barn within time to comply with the four-hour administration requirement specified above.
 - (c) The failure of the trainer to have the horse brought to the detention barn at the appointed time, shall render the horse ineligible to run in the specific race. The Stewards reserve the right to impose a fine on the Trainer of the horse for breach of this rule, and any such horse shall not be allowed to take entry in a claiming race for sixty (60) calendar days, from the date of the race from which it was withdrawn.
 - (d) After treatment of furosemide the horse shall be required by the Authority to remain in the detention barn in the care, custody and control of its trainer or the trainer's designated representative and under the racetrack and/or authority security supervision until called to the saddling enclosures.

1760—Continued

THE TRINIDAD AND TOBAGO RACING AUTHORITY RULES, 2000—CONTINUED

- (3) The use of furosemide shall be administered under the following circumstances on racecourse premises where a detention barn is not available:
- (a) The furosemide dosage administered shall not exceed 250 mg. Nor be less than 150 mg.
 - (b) The Trainer of the treated horse shall cause to be delivered to the Official Veterinarian or his/her designee no later than one hour prior to post time for the race for which the horse is entered the following information under oath on a form provided by the Authority:
 - (i) the racetrack name, the date and time the furosemide was administered to the entered horse;
 - (ii) the dosage amount of furosemide administered to the entered horse; and
 - (iii) the printed name and signature of the attending licensed veterinarian who administered the Furosemide.

F. *Bleeder List*

- (1) The Official Veterinarian shall maintain a Bleeder List of all horses which have demonstrated external evidence of exercise induced pulmonary hemorrhage or the existence of hemorrhage in the trachea post exercise upon endoscopic examination. Such examination must have been performed by or in the presence of the Official Veterinarian or the Racing Veterinarian, or by a Private Veterinarian who is registered with the Authority, in the presence of the Official Veterinarian or the Racing Veterinarian.
- (2) The confirmation of a bleeder horse must be certified in writing by the Official Veterinarian or the Racing Veterinarian and entered on the Bleeder List. Copies of the certification shall be issued to the owner of the horse or the owner's designee upon request. A copy of the bleeder certificate shall be placed on the horse's file with the Authority.
- (3) Every confirmed bleeder, regardless of age, shall be placed on the Bleeder List, and shall remain on said List for a period of not less than six months and once having been administered Furosemide for racing, shall continue to race on said medication for the duration of the six month period while on the Bleeder List.
- (4) A horse may be removed from the Bleeder List only upon the direction of the Official Veterinarian, who shall certify in writing to the Authority the recommendation for removal.
- (5) A horse which has been placed on a Bleeder List in another jurisdiction may be placed on a Bleeder List in this jurisdiction provided that the other jurisdiction's criteria for the identification of bleeders are satisfactory in this jurisdiction.

101. PHYSICAL INSPECTION OF HORSES

A. *Assessment of Racing Condition*

- (1) Every horse entered to participate in an official race shall be subject to a veterinary inspection.
- (2) The inspection shall be conducted by the Racing Veterinarian in the presence of the Official Veterinarian or their designated representative.
- (3) The trainer of each horse or a representative of the trainer must present the horse for inspection as required by the examining veterinarian.
- (4) The assessment of a horse's racing condition shall include—
 - (a) proper identification of each horse inspected;
 - (b) observation of each horse in motion;
 - (c) manual palpation when indicated;
 - (d) close observation in the paddock and saddling area, during the parade to post and at the starting gate; and
 - (e) any other inspection deemed necessary by the Racing Veterinarian in the presence of the Official Veterinarian or their designated representative.

B. *Veterinarian's List*

- (1) The Official Veterinarian shall maintain a list of all horses which are classified as unfit to compete in a race due to physical distress, unsoundness, infirmity or medical condition.
- (2) A horse may be removed from the Veterinarian's List when, in the opinion of the Official Veterinarian, in consultation with the Racing Veterinarian the horse has satisfactorily recovered the capability of competing in a race.

C. *Postmortem Examination*

- (1) The Authority may conduct a postmortem examination of any horse that is injured in this jurisdiction while in training or in competition and subsequently expires or is destroyed. In proceeding with a postmortem examination, the Authority or its designee shall co-ordinate with the trainer and/or owner to comply with any insurance requirements.
- (2) The Authority may conduct a postmortem examination of any horse that expires while housed on racecourse premises or at recognized training facilities within this jurisdiction. Trainers and Owners shall be required to comply with such action as a condition of licensure.
- (3) The Authority may take possession of the horse upon death for postmortem examination. The Authority may submit blood, urine, other bodily fluid specimens or other tissue specimens collected during a completion of the postmortem examination; the carcass may be returned to the owner or disposed of at the owner's option.
- (4) The presence of a prohibited substance in a horse, found by the official laboratory or its designee in a body fluid specimen collected during the postmortem examination of a horse, which breaks down during a race, constitutes a violation of these Rules.
- (5) The cost of Authority-ordered postmortem examination, testing and disposal shall be borne by the Authority.
