TRINIDAD AND TOBAGO—PROCUREMENT OF AN INTEGRATED FINANCIAL MANAGEMENT SYSTEM (IFMIS)
MINISTRY OF FINANCE, REPUBLIC OF TRINIDAD AND TOBAGO, PUBLIC FINANCE
LOAN: No. 3473/OC/TT
DEADLINE DATE: 19TH JANUARY, 2017

The Government of the Republic of Trinidad and Tobago, via the Ministry of Finance (MOF) has applied for financing from the Inter-American Development Bank (IDB) and intends to apply part of the proceeds toward the supply, installation, commissioning and implementation of an Integrated Financial Management Information System (IFMIS).

The services required under this assignment are to supply, install and make operational an Integrated Financial Management Information System (IFMIS) inclusive of the implementation of a new budget classification system (GFS based), the electronic transfer of data and movement from a largely cash based accounting system to a modified cash system and aimed at the future introduction of performance informed budgeting and accrual accounting. The Public Financial Management Modernization Unit (PFMMU), within the Ministry of Finance, is the designated Project Implementation Unit (PIU), for the IFMIS Project.

The IFMIS will be a fully integrated solution consisting of the core systems/modules and non-core systems/modules. The core systems/modules of the IFMIS are expected to cover the following:

- i. **Budget Preparation and Approval**
To comprehensively address the preparation, approval and management processes associated with the Annual Budget. (Including Multi-year and medium-term budgeting).
- ii. **Budget Execution and Fiscal Reporting**
The system must enable electronic oversight and control of the execution of all fiscal operations.
- iii. **Fiscal Accounting and Reporting with Management Dashboards**
The system must have a centralized double-entry General Ledger (GL), for recording all financial transactions of the Central Government, must have the capacity to support multi-standard reporting (such as GFS, IPSAS, GAAP, IFRS) and multi-currency calculations.
- iv. **Cash Management and Bank Reconciliation**
Allowing for the automatic import of cash positions and receivables/payables (if any) from other modules, provide for bank reconciliation and periodic standard and ad-hoc reports.
- v. **Purchasing**
To process requisitions, requests for information, quotations, requests for proposals and the issuance of purchase orders and store vendor data and payment history.
- vi. **Cashiering/Payment Processing**
The system must be able to collect and process the tax payments made at Government's District Revenue Offices (DROs) and must be able to process multiple payment types within a single customer transaction.
- vii. **Asset Management**
The system must enable the Ministry of Finance to maintain a complete and accurate register of the Government's fixed assets, calculate depreciation consistently and optimize asset replacement policies and minimize ownership costs.
- viii. **IFMIS Web Portal**
Overall, this must be an automated system that allows secure on-line access to data by multiple approved users.

The non-core systems are human resources/payroll, debt management and revenue collection (Inland Revenue and Customs) which already have their own systems and interfaces will be required between these systems and the new software.

The Central Tenders Board on behalf of the Ministry of Finance now invites eligible firms to indicate their interest in providing the goods and services described above.
